USER GUIDE & INSTALLATION INSTRUCTIONS

DESCRIPTION: Sport 2-Up Seats

PART NUMBER: All

OVERVIEW:

Designed specifically for the rider that needs a seat that can do everything — canyon carving, track days, commuting, or 1000-mile days. Each seat style is inspired by the motorcycle it goes on, with lines that complement, and textures and contours designed to increase comfort and performance.

TECHNOLOGY

- Saddlemen® seats use Gel-Channel™ technology (patent pending) which incorporates SaddleGel™ and a relief channel in the main foam to relieve pressure on the perineal area and increase blood flow, which in turn keeps you more comfortable and in the saddle longer.
- Advanced GELcore™ construction combined with carefully crafted contours provide excellent support and uncompromising comfort.
- Each Sport Seat is slightly bucketed in the rear section to contour to your body for better comfort and control during aggressive riding.
- Made in the USA.

MATERIALS

• 30 years of street and track testing has given us important data about the contact area between the rider and the seating surface, and how it relates to controlling your motorcycle at speed. Strategic placement of the appropriate materials allows for increased bike control during acceleration, braking, and at extreme lean angles, which can improve lap times.

Saddlemen sport seat cover materials include...

- SaddleHyde™, which offers excellent comfort and feel, as well as all-weather resistance for low-maintenance.
- Faux carbon fiber, an extremely durable vinyl with the perfect look, and just enough stretch to allow the GELcore comfort to shine through.
- Gripper material, used exclusively in areas of the seat that can help you with steering or control.

Our seats provide proven performance advantages and are considered by top professionals and everyday riders as one of the most effective off the shelf performance upgrades you can make to inspire confidence in the canyons or on your daily commute.

IMPORTANT:

All “NOTE,” “CAUTION” and “WARNING” notations are serious safety issues and should be read carefully. Possible injury to riders or damage to the motorcycle and/or this bag may result if improperly installed.

NOTICE TO DEALERS:

These instructions contain important information for future reference and should be given to the customer.

CAUTION:

READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLATION!

Because of the variety of motorcycle configurations, other accessories, and the features and intended use of this Saddlemen accessory seat, there may be different mounting options. You are responsible for the proper installation of this seat on your motorcycle. Your attention to these installation instructions and recommendations will permit safe and proper use of this seat. You must mount this seat properly and securely before riding your motorcycle. If you lack the ability to safely and properly install this product, seek out a qualified motorcycle technician for assistance. During installation, support the motorcycle with a suitable stand or lift so it will not tip over and injure you, or damage the vehicle. Using or mounting this seat improperly could result in a loss of control of the motorcycle which could result in damage to your motorcycle or other personal property, the property of third parties, and/or personal injury to yourself or others, up to and including death.

CAUTION:

- The seat must be installed and securely fastened to the motorcycle in the same fashion as the original seat. Refer to your vehicle's Owner's Manual or Service Manual for seat removal and reinstallation instructions.
- If the vehicle's passenger grab strap is removed during the installation of the accessory seat, make sure it is reinstalled and secure before riding.
- If you do not understand the seat installation instructions DO NOT mount the seat. Remove any items you may have already installed on your motorcycle.
- If your seat is ever damaged, do not use it until it has been inspected by your local professional motorcycle dealer. Replace the seat immediately if it has damage that will prevent it from being properly secured to your motorcycle.

DO NOT ATTEMPT TO USE THIS SEAT IF:

- You do not understand these installation and use instructions;
- You do not understand any part of the mounting system;
- You have any doubts as to the security of the mounting system.

If you have any concerns or questions, seek help at your qualified motorcycle dealer or call the Saddlemen support line at (310) 638-1222.

⚠ WARNING:

Remember: Motorcycling can be a dangerous activity. Installation of any accessory can increase your risk if it is not installed properly. You are responsible to install this accessory seat so it will not contact any portion of the drive train, suspension or steering, and so that it will in no way interfere with the operation of your motorcycle.

To avoid injury, install while engine is cold.

INSTALLATION:

Your Saddlemen Sport Seat has been developed so it will install on your motorcycle in the same manner as the vehicle's original seat. Please refer to your motorcycle's Owner's Manual or Service Manual for seat removal and reinstallation instructions. Remove the original seat and install your new Saddlemen accessory seat in its place.

NOTE: Compare the seat base of your new seat to your original seat, and transfer any rubber grommets or bumpers that may be absent. Use soapy water as a lubricant when you remove and install grommets or bumpers.

If you removed a passenger grab strap from the seat or the chassis when installing the seat, reinstall it when placing the new seat on your motorcycle. With this completed, reinstall the passenger seat per the instructions in your vehicle's Owner's Manual or Service Manual.

IMPORTANT:

Failure to install the accessory seat, any seat cover, or passenger grab straps properly may allow portions of the seats or related materials to slip, or contact the vehicle's moving parts or exhaust system. It is vital that you verify that the seats and any related parts will not touch, or interfere with other components throughout the vehicle's entire range of motion.

After 50 miles (80 kilometers) of riding, verify that the seat components and mounting are still tight and secure. It is your responsibility to make sure that any accessory installation does not create an unsafe or illegal situation.

LIMITED WARRANTY POLICY

SADDLEMEN LIMITED ONE-YEAR WARRANTY Saddlemen warrants its products for defects in materials, design or workmanship for a period of one year after retail purchase. Items that are defective will be repaired or replaced by Saddlemen at its sole discretion. Damage caused by improper use or improper installation is not a defect; therefore repair, replacement or shipping of a damaged accessory will not be covered under this warranty. This limited warranty contains other provisions and conditions, so please refer to the Warranty Policy that was provided with your luggage or visit www.saddlemen.com for additional information. You can count on Saddlemen's quality, innovation, service and style. If for any reason you are not satisfied with the performance of your Saddlemen seat, please contact the Saddlemen support line at (310) 638-1222.
