

MOUNTING SUGGESTIONS:

Harley-Davidson®
FLH/FLHT 1955-93 & all FL
Touring 1994 and up - Fender Bib

Note: Mustang recommends removal of the fender bib before installing a passenger seat. Mounting a passenger seat over a fender bib may result in damage to the bib, poor seat alignment or other problems.

Installation of Mustang fender bib:

1. Remove the seat from the motorcycle.
2. Position the fender bib on the fender. Align the two holes at the front of the bib with the fender holes (1998 and earlier) or stud plate (1999 and later).
3. If installing on FLH or FLHT with no rear fender mount, clean the area of the fender under the rear of the bib, and attach the bib to the fender with the self-adhesive hook-and-loop fastener.
4. For later models, secure rear of fender bib to the fender with the stock rear screw.
4. Re-install the solo seat over the fender bib.
